## **Aquatic Plant Management Program for Individual Landowners - 2026**

Dear Lake Property Owner,

PLM Lake and Land Management is an aquatic service provider located in Minnesota that specializes in controlling aquatic plants and algae through herbicide applications. For individual homeowners such as yourself, PLM offers a two-treatment program in the summer that is designed to reduce plant structures by around 80% and provide better recreational use of the water (swimming, fishing, boating, etc.). The following information outlines the specifics of the treatment program, and how to sign up for the 2026 season if you are interested.

### **Program Details**

Our summer treatment program includes two herbicide treatments, which targets different species that grow at different times throughout the season. The first treatment is conducted in early-mid June, with the following treatment 4 to 6 weeks later. Typically, homeowners will see a noticeable difference in targeted plant structures within 7 to 10 days after each treatment.

### **Treatment Size**

The size of each individual treatment will depend on a couple of factors. Currently, homeowners can request to treat up to ½ of their owned shoreline, with a *maximum* of 100 feet along shore and 100 feet lakeward.

The presence of water lilies, bulrush, and cattails may reduce your area to a 15-foot-wide channel through the vegetation, out to open water. This is ultimately determined by the MN DNR.

## **Pricing**

Our most common treatment areas are listed below with our price for 2026.

Minimum Pricing, Channels, 50' x 50': \$564.50

37' Along Shore x 100' Lakeward: \$673.21

50' Along Shore X 100' Lakeward: \$786.34

\*Minimal fuel surcharge subject to project site and location

Each treatment also requires a permit issued by the MN DNR, with a fee of \$35.00. PLM will cover the cost of the permit for the first year, as a thank you for joining our program.

## **Signing Up**

If you have any questions, or would like more information about our program, please contact us. You can reach us via email at [servicemw@plmcorp.net](mailto:servicemw@plmcorp.net) or by calling our Brainerd Office at 218-270-3338. Our office hours are 8:00 a.m. – 3:00 p.m. Monday through Thursday.

Again, we want to thank you for your interest in PLM Lake and Land Management. We look forward to hearing from you.

Sincerely,

PLM Lake and Land Management
